Technical Product Specification & Interface Guidelines

|                                                   |                                        |
|---------------------------------------------------|----------------------------------------|
| Component ID: COMP-C05                            | Revision: B                            |
| Document ID: DOC-SUP-COMP-C05-B                   | Effective Date: 2026-10-01             |
| Part Description: Precision Engineering Component | Status: Authoritative Supplier Release |

## 1. Product Overview

This document serves as the authoritative supplier technical specification for revision B of component COMP-C05. All physical dimensions herein supersede preliminary notes.

## 2. Physical Dimensions & Mechanical Parameters

Mechanical parameters and specifications for component ID COMP-C05 (25°C, 50% RH):

**Component thickness: 0.8 cm.**

| Parameter      | Nominal Value | Tolerance | Notes               |
|----------------|---------------|-----------|---------------------|
| Supply Voltage | 3.3 V         | ±0.1 V    | Standard logic rail |

## 3. Synthetic Demonstration Notice

This datasheet is entirely synthetic demonstration data created for testing and verifying the Engineering Data Investigation Copilot benchmark suite.
